

GreatKids New Hampshire Test Guide for Parents is a free, online tool organized by grade and subject to help parents use the Smarter Balanced test scores to support their kids at home. The guide was developed by Great Schools, a national nonprofit organization, in collaboration with leading educators and the Smarter Balanced Assessment Consortium. The guide offers specific, actionable information for parents as they work to support their students at home. This online resource includes a collection of video links organized by grade level and subject area that illustrate what expected skills look and sound like in the classroom.
