

**HIGH SCHOOL CREDIT(S) FOR MIDDLE SCHOOL ADVANCED COURSEWORK**

Middle school students can earn high school credit towards their graduation by taking advanced courses at the middle school. Mathematics and Modern Language (French and Spanish) courses that demonstrate content requirements and successful passage to the next sequential courses will be considered. Prior approval of additional courses may be considered at the discretion of the high school principal in consultation with the middle school principal.

The high school principal shall approve such course work and possible credit prior to the students enrolling in the class. High school credit will only be awarded following a completed class and final successful grade.
